

WELL VERSED | CHAPTER 5

First Amendment and Religious Liberty

1. When our Founding Fathers used the phrase Laws of Nature and Nature's God, what did they mean? (38)
2. Are there times when we have to confront political leadership? Look at the examples on page 39 of John the Baptist and of Nathan.
3. How is it possible that the focal point for the evaporation of our Religious Liberty has centered so much on the issue of homosexual behavior, homosexual (so called) "marriage" and issues regarding transgenders? (40-41)

(Note: We will deal with the importance of the issue of historical, biblical marriage in Chapter 8.)
